INTRODUCTION.

The Salem East India Marine Society is composed of persons who have actually navigated the seas beyond the Cape of Good Hope or Cape Horn, as masters or supercargoes of vessels belonging to Salem. It was founded in October 1799, and obtained an Act of Incorporation in 1801. 282 members have been admitted, 91 have died, and 7 have retired from the Society; so that at present it consists of 284 members, of whom 132 still reside in Salem.

The chief objects of this institution are—

First, To assist the widows and children of deceased members, who may need it, from the income of the funds of the Society, which at present amount to nearly seven thousand dollars, obtained from the fees of admission and the annual assessments.

Second, To collect such facts and observations as tend to the improvement and security of navigation. For this purpose, every member, bound to sea, is authorized to receive from the Society, a blank journal, in which he is to insert all things worthy of notice which occur during his voyage, and upon his return it is to be deposited with the Society. These journals are afterwards bound in volumes, each containing ten numbers, with an index, by the Inspector. Sixty-seven journals of voyages made to various parts

of the world, (and in several instances to places rarely visited) have already been deposited. They are open to the public inspection, and recourse is often had to them, to correct the latitudes and longitudes of places visited by our ships. With the same view, the President and Committee have authority to purchase such books of voyages, travels and navigation, as they may think useful to the Society.

Third, To form a Museum of natural and artificial curiosities, particularly such as are to be found beyond the Cape of Good Hope and Cape Horn. This object has been obtained to a considerable extent, chiefly by the voluntary donations of the members as well as of others friendly to the institution; and the whole collection is placed in the Hall where the Society holds its meetings. It has been lately arranged in a new and more scientific manner, and a catalogue made under the direction of Dr. MALTHUS A. WARD, who has thus rendered very important services to the Society and to the public. Visitors (accompanied by a member) are admitted to the Museum at all times, free of expense.

How far the Society has fulfilled the expectations of its founders, can partly be seen by the catalogues and statements subjoined. Though much has been accomplished, it is hoped, from the late accession of a great number of young and active members, that more will be done to increase our nautical knowledge, and to render the Museum a still greater object of attention to the man of science.

Salem, Oct. 1831.

ACT OF INCORPORATION.

COMMONWEALTH OF MASSACHUSETTS.

In the year of our Lord one thousand eight hundred and one.

An Act to Incorporate Benjamin Hodges and others, into a Society by the name of THE SALEM EAST-INDIA MARINE SOCIETY.

Whereas, Benjamin Hodges, and others, have petitioned to be incorporated for the laudable purpose of affording relief to disabled Seamen, and to the indigent Widows and families of deceased Members and others; and of promoting a knowledge of navigation and trade to the *East Indies*,—

SEC. 1. *Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same*, That Benjamin Hodges, Benjamin Carpenter, John Osgood, and Jacob Crowninshield, together with all others who now are, or hereafter may be associated with them, be, and they hereby are, constituted a body politic and corporate forever, by the name of THE SALEM EAST-INDIA MARINE SOCIETY, and by that name may sue and be sued, plead and be impleaded, answer, and be answered unto, defend, and be defended, in all Courts and places whatsoever, in all actions, real, personal, and mixed; and the said Corporation shall have full power and authority to make, have and use a Common Seal, and the same to break, alter, and renew at

pleasure, and shall have and enjoy all the privileges and powers incident to a Corporation.

Sec. 2. *Be it further enacted*, That the said Corporation be, and the same is hereby made capable in law, of having and holding, by gift, grant, device, or otherwise, any Estate, real or personal, *Provided*, the same shall not exceed forty thousand dollars in value.

Sec. 3. *Be it further enacted*, That the said Corporation may annually, or at any special meeting, called for the purpose, elect all such officers, and make, establish, and put in execution such By-laws, rules and regulations, as to calling future meetings, the election and admission of Members, and the Government thereof, as they shall judge to be necessary; *Provided*, that the same shall in no respect be repugnant to the Laws and Constitution of this Commonwealth.

Sec. 4. *And be it further enacted*, That the aforenamed Benjamin Hodges, Benjamin Carpenter, and John Osgood, or any two of them, be, and they hereby are authorised, by a notification under their hands, published in the Salem Gazette, three weeks successively, to call a meeting of the members of said Society, to be holden at any suitable place in said Salem.

Sec. 5. *Provided*, nevertheless, that the said Society shall neither directly nor indirectly, deal or trade in buying or selling any goods, wares or merchandize, or commodities whatsoever; *Provided also*, no person shall be eligible as a member of said Society, un-

less such as have actually navigated the Seas near the *Cape of Good Hope, or Cape Horn.*

In the House of Representatives, March 2d, 1801.

This Bill, having had three several readings, passed to be enacted.

EDWARD H. ROBBINS, *Speaker.*

In the Senate, March 3d, 1801.

This Bill having had two several readings, passed to be enacted.

SAMUEL PHILLIPS, *President.*

March 3d, 1801, By the Governor approved,

CALEB STRONG.

BY-LAWS.

We the Subscribers, being fully convinced that advantages would result from a friendly association of such persons as have, or shall navigate in the Seas near or beyond the Cape of Good Hope or Cape Horn, either as Masters or Commanders of ships or as Factors or Supercargoes—have formed ourselves into a Society, by the name of *The Salem East-India Marine Society*, and do hereby agree to the following

ARTICLES.

Art. 1. Any person shall be eligible as a member of this Society, who shall have actually navigated the Seas near the Cape of Good Hope or Cape Horn, either as Master or Commander, or (being of the age of twenty-one years) as Factor or Supercargo of any vessel belonging to Salem—or, if resident in Salem, of any vessel belonging to any port in the United States.

Art. 2. The election of Members shall be by ballot, and the votes of three-fourths of the members present shall be necessary to admission; and no vote on the admission of a Candidate shall be taken at the same meeting at which he is proposed, unless for sufficient reasons the President and Committee shall direct it.

Art. 3. The Society shall have a President, a Committee of Observation, consisting of three mem-

bers, a Treasurer, an Inspector of the Journals, and a [Recording] Secretary, to be chosen by ballot annually, on the first Wednesday in January; and in case a vacancy shall take place in either of said offices by death or otherwise, the Society at their next stated meeting shall fill the same for the residue of the year.

Art. 4. The President shall preside at all meetings, receive and sign all communications, and direct the execution of all orders of the Society; and no publication shall be made of any of its doings, without the consent of the President, or a vote of the Society.

Art. 5. The Committee of Observation, with the consent of the President, shall purchase such Books of History, of Voyages and Travels, and of Navigation, as they may think useful to the Society; shall inspect the records of the Society; and in the absence of the President at any meeting, the senior member of this Committee who may be present, shall preside.

Art. 6. The Treasurer shall keep a true and full account of all monies received and paid on account of the Society, and of all property of whatever name, belonging to the Society, and shall give bond to the satisfaction of the President and Committee, for the faithful discharge of his trust, and annually submit his accounts to the inspection of the President and Committee for settlement, and such settlement shall be signed by the President, and laid before the Society at their annual meeting in January.

Art. 7. The Inspector of the Journal shall receive from the members, the Journals of their respective voyages, which he shall arrange and keep in the

Library of the Society, for the use of the members, under such regulations as the President and Committee may direct. He shall also record in Books to be kept for the purpose, such communications as the President and Committee may think useful to Navigation.

Art. 8. The [Recording] Secretary shall furnish every member with a printed copy of the By-Laws and Regulations, and shall notify the members of the time of meeting, by leaving a written or printed notification at their respective dwellings, at least one day previous to the meeting. He shall also record in Books to be kept for that purpose, all transactions of the Society; and shall receive and deliver to the Treasurer, the sums due from the members for their admission, assessments and fines.

Art. 9. The Society shall meet six times in a year, namely, on the first Wednesday in each of the months of January, March, May, July, September, and November, at such hour as the President may direct.

Art. 10. Each member at his admission shall pay to the Society the sum of twenty-five dollars, and the further sum of fifty cents at each stated meeting for the term of twelve years from his admission; after which this assessment shall be reduced to twenty-five cents at each meeting.

Art. 11. Any member duly warned, who shall neglect to attend at the time and place appointed for a meeting, unless prevented by absence from town, or sickness, or unless he shall offer some excuse, which shall be accepted by the President and Committee, shall pay a fine of twenty-five cents to the Society.

Art. 12. The President and Committee shall provide a convenient place for the meeting of the members, and for the safe keeping of the Books, Papers, Charts, Curiosities, and other property of the Society.

Art. 13. The members shall collect such useful publications, or articles of curiosity, as they think will be acceptable to the Society, either as donations thereto, or to be held in their own private right for the temporary use of the Society, under such terms as may be agreed on with the President and Committee.

Art. 14. Every member bound to sea, shall receive a Blank Journal from the Secretary, in which he shall enter the occurrences of his voyage, and particularly his observations of the variation of the compass, bearings and distances of Capes and head-lands, of the latitude and longitude of Ports, Islands, Rocks, and Shoals, and of Soundings, Tides and Currents, and on his return shall deliver the same to the Inspector of the Journals, for the use of the Society.

Art. 15. The President and Committee may order a public dinner to be provided for the Members annually, at such time and place as they shall think best; and the expenses shall be paid by such members as are notified to attend, except such as shall, ten days, at least, before the time appointed, signify in writing to the Secretary their intention not to partake of the same, and also such as shall be excused by the President and Committee.

Art. 16. Every member who shall have been within this Commonwealth, and have neglected to pay his assessments for two years—or, within the

United States, and have neglected the same for four years, and after an account of such assessments shall have been delivered to him, or who shall in any way disturb the harmony of the Society, shall be liable to be expelled therefrom, by the votes of three-fourths of the members present. But no expulsion shall take place at the same meeting at which it is proposed, nor until the member complained of shall be notified of the same, which shall be done by delivering him a written notification signed by the [Recording] Secretary, or leaving the same at his usual place of abode, at least one month previous to the vote being taken.

Art. 17. If any member, by shipwreck, capture, or other unavoidable misfortune, become unable to pay his assessments, all demands upon him may be suspended, at the discretion of the President and Committee.

Art. 18. The Capital Stock of the Society shall be invested under the direction of the President and Committee, in the Stock of some incorporated companies, or in the public funds—or let at interest on bond or mortgage of land within the town of Salem, of at least double the amount, and free from all incumbrances.

Art. 19. The members of the Society, or the Widows and Children of deceased and expelled members, or should there not be such, their parents, who may need assistance, shall be entitled to receive a proportion of the interest of the Society's funds, annually, at the discretion, and under the direction of the President and Committee.

Art. 20. To prevent injuries from unfounded

charges of misconduct in foreign voyages, the Society shall, on application of any member who may conceive himself thus charged, institute an inquiry by a special Committee of five persons to be chosen by ballot, who shall report the result thereof; and if two thirds of the members present are of opinion that the charges are unfounded, the person applying shall be entitled to a certificate of the same, signed by the President, and countersigned by the Secretary.

Art. 21. Politics shall not on any occasion be introduced into the Society.

Art. 22. No new By-Law shall be binding on the Society, until it shall have been reported at one of the stated meetings by a Committee chosen at some previous meeting for the purpose. The votes on each article shall be taken separately by ballot; and the names of the voters, with the number of votes for and against the same, shall be entered on the books of the Society; and it shall be binding when a majority of all the members shall have approved of it.

☞*Since the acceptance of these By-Laws, the following additional articles have been made.*

Art. 23. A Distributor of the Journals shall be chosen, whose duty it shall be, to provide every member bound on a voyage, with a blank Journal to be kept by him for the use of the Society.

Art. 24. A Superintendant of the Museum shall be chosen, whose duty it shall be, to enter the articles presented to the Society, in the catalogue, and to make such alterations in the arrangement of the Museum, (under the direction of the President and Committee) as may be judged expedient.

Art. 25. A Corresponding Secretary shall be chosen by ballot, whose duty it shall be, to write any letters in behalf of the Society; to communicate the votes of thanks passed by the Society to any persons; and to perform the duties of the Recording Secretary in his absence.

At stated meetings of the Society, held at their Hall:—

May 2d, 1821—*Voted*, That a Corresponding Secretary be chosen by ballot, whose duty it shall be to write a reply to any letters in behalf of the Society, to communicate the votes of thanks, made by the Society to any persons, and to perform the duties of the Recording Secretary in his absence.

Voted, That permission shall not be given to any person or Society to use the Hall for their meetings, except by a vote of the Society, at a stated meeting called expressly for the purpose.

February, 1824—*Ruled or Ordered*, That the Superintendant of the Museum be authorised to purchase any articles of curiosity for the use of the Society, to render their Museum more complete, or a written order for that purpose, signed by the President and two members of the Committee of Observation, or by three members of the Committee in the absence of the President, which order shall specify the articles so ordered to be purchased. And the

Superintendant shall, previous to the annual meeting, in January, deliver to the President and Committee, an account in writing of all purchases made by him, which account shall be laid before the Society by the President at said annual meeting.

February 28th, 1824—That the interest of the Institution would in their judgment be promoted, by authorising the Superintendant of the Museum, with the written assent, or upon the written order of the President and two members of the Committee of Observation, or in the absence of the President, of three members of the Committee of Observation, to exchange any article of the collection which may have been presented by members or purchased by the Society, and of which there may be more than one specimen, for other articles of which the Collection may be deficient and which may be deemed not less valuable to the Society.

That the written assent or order of the President and Committee, or of the Committee (as the case may be) should be recorded on the Journal of the Society, and should specify the particular article to be exchanged.

That an account of such exchanges should be laid before the Society, annually, and the persons from whom such articles are received, to be considered the donors of such as may be taken in exchange for them.

That the authority to make exchanges should be confined to the donations of Members and the purchases of the Society, and in no case to extend to articles which have been presented to the Society by

persons, who are not members, without the written assent of such persons.

January 5th, 1825—*Voted*, That the Secretary shall notify all meetings of the Society by advertisement, signed by him and published in two or more of the public papers printed in Salem, five days at least prior to the meeting.

March 2d, 1825—*Voted*, That Special Meetings of the Society may be called, whenever they may be deemed necessary, by the President and a majority of the Committee of Observation, or at the request of seven or more of the members, made in writing to the Recording Secretary, who shall notify such meeting in the same manner as the stated meetings are notified.

January 4th, 1826—*Voted*, That the President and Committee of Observation be authorised to make such Insurance on the property of the Society as they shall think proper.

May 3d, 1826—*Voted*, That the President and Committee of Observation, be authorised to buy the Stock of the East India Marine Hall Corporation at not exceeding par, (without reference to any rent that may be due) as fast as the funds of the Society will admit of it, always reserving on hand the sum of sixteen hundred dollars to meet any contingent expense.

May 3d, 1826—*Voted*, That five thousand dollars

be insured on the Building of the East India Marine Hall Corporation, and five thousand or ten thousand more as the President and Committee of Observation may deem best on the Cabinet, and that the Cabinet be valued at ten thousand dollars in the policy.

July 4th, 1827—*Voted*, That it being of importance to Navigation and for the benefit of this Society, that as many of the Journals of its Members, kept during their absence at sea, as can be procured, should be bound and deposited in the Museum, it is therefore *requested* of *every member*, during his absence at sea, to keep a journal of his voyage, and on his return to hand it immediately to the Inspector or Distributor of Journals or the Superintendent of the Museum.

May 3d, 1826—*Voted*, That any Member of this Society who may have kept a Journal of his Voyage or Voyages, which is now in his possession, be requested to present it to the Inspector or Distributor of Journals, or to the Superintendent of the Museum, to be bound and placed with the Journals of the Society.

Besides the usual occurrences of a ship's journal, this collection contains many observations of the variation of the compass, in various parts of the world; observations of the latitudes and longitudes of places; sailing directions for many places and coasts; manner of transacting business at several of the native ports in the East-Indies, with the weights, coins, imports, exports, &c. The limited nature of the present publication will not allow of a more complete account of these Journals than that we have here given.

3072 to 3205, inclusive, are a collection of Copper and Bronze figures found concealed in an old Temple at Jochtacartha, the ancient Capital in the interior of Java. Some of them are fabulous characters, but for the most part they represent people engaged in various domestic employments and religious ceremonies. They appear to have been cast at very different epochs; the most ancient, such as the winged figure No. 3201, and the animals No. 3142, 3197, &c. being far better executed than the more modern ones, such as the Dutch soldiers, No. 3186, 3194, &c.

The art of founding such articles is said to be now entirely lost,
